

HELP MAKE DARRELL'S DREAM A REALITY!

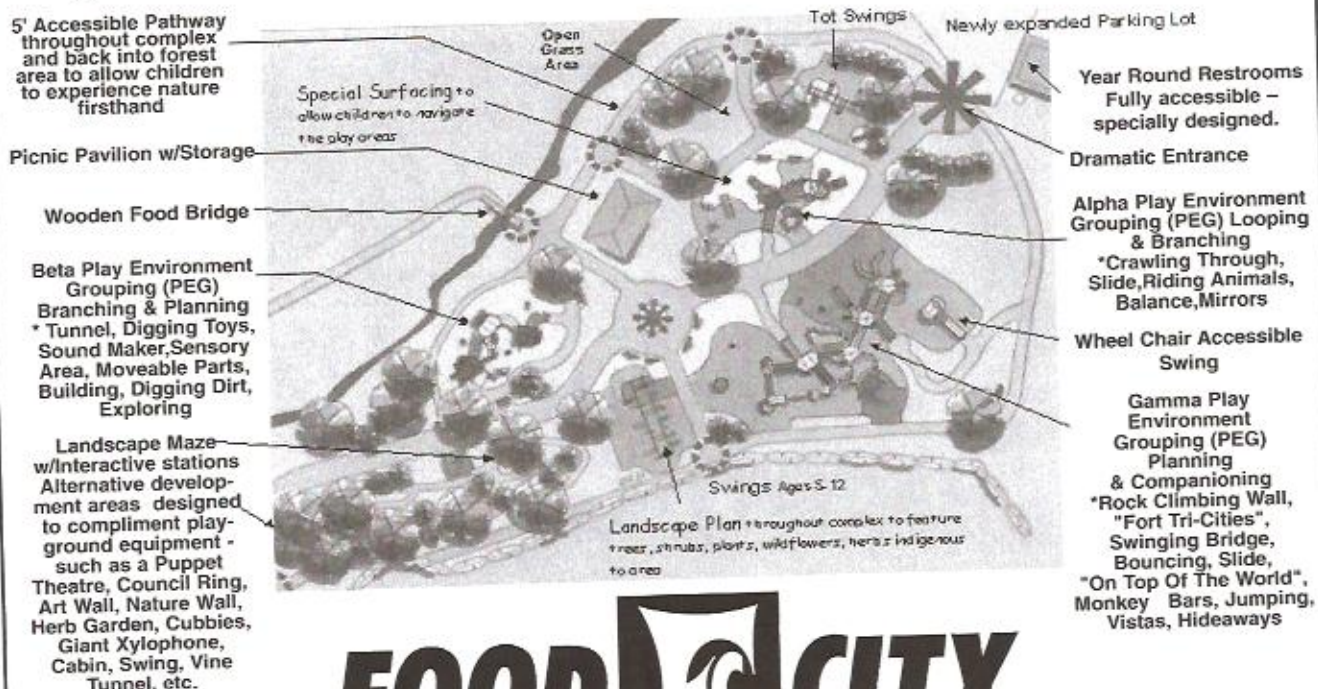

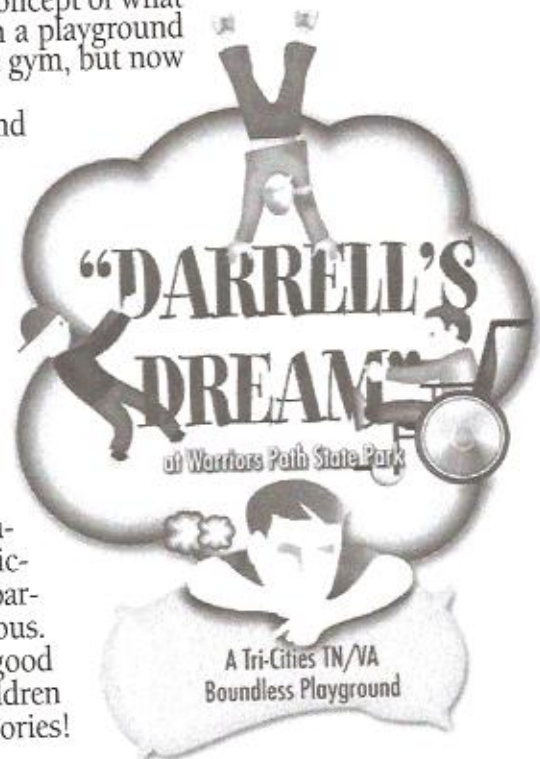

What is a Boundless Playground®?

Remember when you were a child and you had no concept of what being "different" meant? However, when you stepped on a playground some kids couldn't swing or climb to the top of the jungle gym, but now they CAN!

A Boundless Playground® is a barrier-free playground for ALL kids and adults. It is specially designed to help kids with disabilities know the joy of playing care-free. Warriors Path State Park in Kingsport, TN, is the site of the fully integrated, universally accessible playground for children of all abilities, including children with physical, developmental and sensory disabilities. The site is named "Darrell's Dream" in memory of Tri-Cities community leader Darrell Rice, a long-time volunteer and true friend to the region.

The Friends of Warrior's Path State Park, the local organizing committee, are partnering with The National Center for Boundless Playgrounds®, a nonprofit organization that provides leadership, technical and support services, and training to configure play environments that are barrier-free in addition to being developmentally advantageous.

So please support this project and remember the good times you had on a playground or watching your children swing for the first time. All kids should have those memories!
